September 01,2005

Acquisition of first Reach Stacker container handler.

Storstac is proud to announce its first acquisition of a 199 Kalmar reach Stacker Container handler.

The purchase was awarded to Fantuzzi USA, a long working relationship between Vincent Ruggiero, Andrea Lusvardi and the entire team at Fantuzzi.

The unit was brought to Storstac in Toronto from Arroyo Grande California, a great purchase for a great machine.

This new piece of equipment allows storstac to stack containers up to six high and propel Storstac to be able to provide full Depot services to its customers in the GTA.

We would like to thank all the supporting vendors in providing first class service and making the transaction a real pleasant experience.
